# Maintenance Repair & Operations

# HYDAC

# HYDAC

WWW.HYDAC-MRO.NL

# Discover how our MRO solutions contribute to maximum reliability and minimal downtime.

7 locations and over 11,000 m<sup>2</sup> of workshop floor space across the Netherlands, more than 300 specialized employees, and over 50 years of experience and expertise ensure that your drive and control systems remain in top condition.

## Maintenance & Inspections

### Preventive Maintenance

By making use of our HYDAC Fluidcare Portal program you can plan your timely inspections with us.

### Predictive Maintenance

We can install advanced HYDAC sensor technology for early detection of wear and tear.

### Corrective Maintenance

Rapid fault recovery and repair at your premises by our service team.

## Repair & Overhaul

- ✓ Repair and refurbishment of electric components like motors and hydraulic pumps, motors, valves, and cylinders.
- ✓ Replacement of consumables like filters and hoses.
- ✓ Software updates.

## Rental

- ✓ Diesel driven hydraulic power packs
- ✓ Fluid cleaning and -control units
- ✓ Flowsensors
- ✓ Aqua mobil units
- ✓ Mobile data recorder - HMG
- ✓ Filter units
- ✓ Hydraulic flushing unit

## Efficient Operations

- ✓ Inventory management including analyses of essential spare parts.
- ✓ Training and support for your technical teams.

# With our subsidiaries HYCOM and ELMA, we combine expertise for the sustainable operation of your machines.

**HYDAC** **HYCOM**

Established reputation in the market. Installed base for engineering of hydraulic systems for civil works, industry, dredging and offshore wind. Hydraulic test equipment for aircraft maintenance and assembly.

**ELMA**

Installed base engineering for control systems cranes and offshore applications, assembly of drive and control cabinets and panels (also at ELRO Romania), Service and repair department for electric motors.

# To ensure future-proof sustainable operations, our MRO strategy focuses on these core values:

Continuous innovation

Circularity

Collaboration with supply chain partners

Energy-efficient solutions
