Scope 1

Gas consumption measures	Reduction on emissions (m3)
1. inventory of Thermostats	0%
2. Reprogramm Thermostats	3%
3. Inventory of intermediate meters gas consumption	1%
4. Monitor movements of overhead doors	0%
5. Install heating curtains at overhead doors	5%
6. Provide remote controls overhead doors	2%
7. Launch behavioral campaign	5%
8. Review lease contract properties and impose urgency of sustainability	0%
9. Inventory energy labels of the properties	0%
Total on gasconsumption	**16%**

Fuel consumption measures	Reduction on emissions (liters)
1. Establish policy on new car purchase	9%
2. Purchase only HVO100 diesel for rental and company generators	11%
3. Accept cost increase for fueling Biodiesel	13%
4. Sales pool regrouped by region	4%
Total on fuel consumption	**37%**

Scope 2

Electricity consumption measures	Reduction on emissions (kWh)
1. Install solar panels at Elma	22%
2. Map efficiency of solar panels Elma.	0%
3. Fixed clock periods of air conditioning units	6%
4. Merge servers	2%
5. Purchasing green power	100%
6. Review EED notification requirement	0%
7. Install LED lighting	4%
Totaal op elektraverbruik	**100%**

Business travel

Measures business travel	Reduction on emissions (km)
1. Improve data collection on business flights	0%

Reduction potential	Reduction per scope	Reduction on total
Scope 1	53%	12%
Scope 2 + BT	82%	38%
Totaal		**49%**
