

HYDAC INTERNATIONAL

PIPING
for Hydraulic Equipment

From engineering to testing complete piping solutions, turn key systems & prefabrication.

HYDAC is specialized in turn-key hydraulic systems, used in various applications everything with the best quality. Part of our wide range of solutions is hydraulic piping which comes with technical support, engineering, prefabrication, installation and documentation.

One stop shopping; we will make it easy for you!

With more than 30 years experience we can provide customized piping solutions for every branche like offshore, marine, dredging, mobile equipment and industry.

HYDAC and Hydraulics For over more than 50 years inseparable

HYDAC stands for hydraulics, systems and fluid technique and was founded in 1963 in Sulzbach, Germany. In 1993 the Dutch company HYDAC BV was added to the organisation and now has over more than 150 employees. In addition to the Dutch head office in Helmond, there are facilities in Drachten, Dordrecht, Apeldoorn, IJmuiden and Enschede.

HYDAC is the leading producer worldwide of hydraulic components, subsystems and systems for both mobile and stationary applications.

The company combines its broad product portfolio with more than 50 years of experience in development, manufacturing, sales and service to be the most challenging to solve hydraulic problems.

Providing service worldwide without forgetting about our clients nearby.

Engineering: let us do the thinking

Early involvement by HYDAC in your engineering phase means optimization of the process to achieve a reduction of the overall costs.

Prefabrication

In our facility we have the newest and most modern equipment to bend pipes conform our 3D drawings, produced by our own engineering department or provided by our customer. HYDAC is able to deliver both welded and non-welded piping systems. Whatever fits your needs we can provide a solution.

Installation

HYDAC has a team of trained employees and modern tools and equipment:

- Workshop containers
- Mobile bending machines
- Measuring equipment
- Pipe flaring machines
- Containerized flushing and testing units

Service, all in one company

Due to all the HYDAC companies, located in over 55 countries worldwide, we are able to support you fast and efficient.

Whether it is about supplying hydraulic systems, piping solutions or when just flushing of your system is necessary; you only need to contact one company.

System documentation

- 3D drawings as built
- Material certificates / Traceability
- Classification approval
- Bill of materials
- Test reports (flushing and pressure testing)
- Final documentation book

HYDAC

RENTAL

**Need for temporary equipment?
HYDAC rentals; oil conditioning,
flushing and fluid monitoring.**
